## Part B

### CRITERION I – CURRICULAR ASPECTS

#### 1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Our College has a good mechanism for curriculum delivery and documentation. Institute receives designed curriculum from university. Our IQAC conducts meeting for discussion on new syllabus. IQAC suggests to HODs of all departments about workload distribution as per new syllabus. HODs of all departments conduct departmental meetings and distribute the workload among their teachers. The time-table committee prepares time-table considering the days i.e. Monday to Saturday. The time-table is prepared for a academic year. All the teachers prepare their curricular planning by individually. The syllabus is planned according to term. The period from July to October and December to March is considered as teaching period. By considering the teaching period each teacher plans his syllabus. The period for examination is considered like October to December for Semester-I and March to May for Semester II. All the teachers are always plan their syllabus by considering the examination period. The IQAC advices and notices to all teachers and HODs about implementation of teaching activities as per timetable. Syllabus completion reports are collected from all the teachers through the all HODs. A review is taken in mid- term period about teaching activities. All types of documents are collected and filed relating to curriculum planning and implementation. The HOD

of each department gives feedback relating to relative activities. At the beginning academic session, college prepares its proposed academic calendar, which is uploaded in the college website. The proposed academic calendar is prepared according to the notices and circulars received from the affiliating university. Students are informed about the academic calendar of the college notifying the probable teaching days, dates of internal examinations, curricular, extension related and co-curricular activities. Induction programme is organized for newly admitted students to make them aware of the mechanism for curriculum delivery and implementation. The Arts and Commerce classes are scheduled at morning session and the classes of Science and Computer Science are scheduled at evening session. Departments conduct meetings for allotment of classes and syllabus distribution among the teachers. Students are given details of teaching assignment of each teacher at the beginning of a session by the department. Along with the traditional chalk and talk method, teachers often use power-point projections during the lectures to demonstrate topics. Class tests/surprise test and student seminars are held after completion of a section of the syllabus and periodic review of performance of students is undertaken. Tutorial classes are held in some departments within class routine hours for which separate attendance registers are maintained. Field tours are organized by Departments of Geography, Botany, Zoology to ensure effective implementation of the prescribed curriculum. Post-graduate students are specially trained to handle assignments, open-house seminars and dissertation to prepare themselves for academic research in future. Interactive sessions with students and guardians to identify the problems. Special care is taken for the problems of slow, advanced learners. Student satisfaction survey is conducted by IQAC to improve the teaching learning process of each department.

#### 1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

#### 1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained
<p>The feedback from all the stakeholders is mostly helpful to our institutional development plans and decision making process. First of all we prepare the feedback schedules. In the prepared feedback schedules we ask the choice based questions according to group of stakeholders. The opinions from present students, exstudents, parents are collected. The feedbacks are collected at the end of term or academic year. The collected feedback is classified according to questions. The students feedback is related to applicability of syllabus, teacher's depth of knowledge, communication skill, problem solving capacity and teaching skill. The opinions of students are also collected with relation to cleanliness, availability of classroom, drinking water, toilet and labs. The parents feedback is also obtained. In this feedback the parents are asked about admission process, infrastructural facilities, educational resources, students' performance etc. We call the parent meeting with the purpose of reporting the new changes in the facilities . All parents are informed about overall performance of different activities and college campus. The feedback is collected in this meeting. We have an alumni through which we call the alumni meet. All the exstudents which are present give feedback about college campus, teaching facilities, infrastructural facilities etc. is collected. Exstudents expresses their opinions about performance of the college. The opinions from all the stakeholders are written in the tabular form. The collected data is</p>

classified according to responses and groups. We analyze the data as per asked questions. Our principal calls the meeting of IQAC members. In the IQAC meeting we discuss about opinions given by students, parents and exstudents. The feedback received from student, parent and alumni are taken into account to determine the future development policy of the college.

#### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Student mentoring system is available in the college. The teachers are aware about to maintain the good relations with students. Through the mentoring system it is tried to maintain the relation and uplift the students. By using following steps the mentoring system is followed. Firstly the mentor teacher wants and needs of the

students and addresses them in a timely manner. By meeting the needs of students they feel their success.

Second step is taken into account that the students are treated as colleague .By this way the fear and misunderstanding is removed. At the third step an involvement of the students in teaching learning activities is increased without any restrictions. Through this the learning interest of the students is increased. The fifth step is used to explaining everything and anything by sharing knowledge with students. In the sixth step the students are asked to critique the teaching rightly and give their real opinions. The seventh step is used for taking feedback from the student at open mind which is helpful to teacher student relationship. Mentoring of students is based on the following objectives: • To increase the teacherstudent contact hours • To identify and address the problems faced by slow learners and first generation learners • To encourage advanced learners • To decrease the student dropout rates • To prepare students for the competitive world Every year, departments individually organize orientation sessions on the class commencement day for students of first semesters and explain the designing and implementation of the mentoring system of the department. In the mentoring process, all necessary information related to the student such as the contact number, email of the student, family income, category, gender etc are initially collected by the department through the student database format provided by the IQAC. Departments maintain the records of class tests/surprise tests, attendance records, records of student seminars etc related to the reviewing of the performance of the students. Outcome of the departmental mentoring system in the current year (20182019) Significant improvement in the teacherstudent relationship has been observed The participation of students in different activities becomes increased. Students have shown outstanding performance in sports tournaments. College has planned to introduce a mentoring guideline for all departments from the next academic session.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Our college adopts Continuous Internal Evaluation system. Examination section of our college look forward to internal evaluation system. The notification regarding the programme of evaluation is forwarded to the teaching staff. Under the CIE system there are different ways like classroom tests, seminars, orals, assignments, tutorials etc. are adopted. The CIE system is used to assess all aspects of the students. All the students are made aware of the evaluation process through the activities like: 1) The orientation programme at the beginning of the year through induction programme. 2) Teachers" teaching plans contains evaluation procedure. 3) We prepare the Academic Calendar considering with CIA exam dates. 4) Orientation on changes and amendments in the evaluation process through departmental meetings. 5) All types of information is displayed in the College and Departmental notice boards. Result analysis is done by the class tutors after every CIE. Pass percentage is calculated by dividing the total number of students appeared and passed . The performance of the students is monitored by the Principal and necessary feedback is given to the concerned faculty members. The Principal conducts Review Meetings to give necessary feedback for the improvement of students" performance. The College is keen on monitoring the performance of the students and reports to the Parents. Parents are advised to note the performance of their wards. Whenever necessary it is recommended the visit of the parent to the college for a discussion about the student. External examination of three hours duration is conducted at the end of every semester for all the theory papers and practical papers. Supplementary are conducted who have appeared and failed in any one of the examination of theory paper. All the students are informed about reappearing/recounting/revaluation scheme available in the college. Revaluation is permitted only for regular examinations.

Best Practice 1 Title of practice - Vermiculture Goals: 1. To create (produce) organic fertilizer from biological wastes. 2. To keep campus clean and eco friendly. 3. To save money spent on purchasing chemical fertilizers. 4. To develop application skill The context: The dried leaves and biodegradable waste created on college campus is systematically used to produce the Vermicompost or organic manure. The Practice: All dried leaves from trees on campus are
--

collected and put into compost pits. The semi digested compost material from the compost pit is transferred to the vermicompost project, the best and advanced varieties of earthworms are put into compost medium, regular water is sprinkled till the compost is converted into organic manure. Evidence of Success: The college has saved money which would have otherwise been utilized to purchase fertilizer for trees in garden on the campus. The vermicompost fertilizer is more productive which keeps plants more healthy and fresh. Problems encountered and resources required: Vermicompost needs shade, water facilities and skilled labour and experts. Contact details: 1. Prof. V.A. The context: We provide earn and learn scheme to poor students for economic improvement through mushroom cultivation. The practice: We conduct a workshop to students developing skill in mushroom cultivation. In this workshop we impart practical skill and necessary knowledge to develop mushroom cultivation as cottage industry procedure for mushroom as: preparation of mushroom bed, spawning, maintenance of bed, harvesting and marketing. Evidence and success: It has been observed that the student from rural area tries to develop mushroom cultivation at college. Mushroom provides protein, vitamin, and minerals rich food. Mushroom is sources of non conventional food. This is the good example to eradicate mal nutrition. Problems encountered and resources required: The students from remote areas cannot get proper supervision hence these students stay in Bhor for education. Mushroom unit they have developed at their native place. It may causes contamination due to insanitation which result into less in production. Requirement of wheat straw, proper fungus seed (Spawn) are not available easily. Contact details: 1. Dr. P.B. Kamble HOD, Dept. of Botany, Anantrao Thopte College, Bhor, DistPune. 2. Dr. (Mrs.) S.A.
